Becoming a Member

When you signup, we will send you by email an attached PDF file having our monthly specials. Occasionally we also send new product information and special notices by email (example: activities happening at The Hardwood Store during community events).

New Member Confirmations: Your first email will be a confirmation. We send a confirmation to "test" your email address. We normally send the confirmation shortly before the specials (a few days before the special starts). *We DON'T send confirmations immediately.*

If you sign up and don't receive the next month's specials, it's because we had a problem with your email address. Please sign up again so we can correct our contact info. Sorry for any inconvenience.

New Email Address: Please sign up with your new email address. We will send notices to your new address and stop sending notices to the old address once the address stops working.

Not Receiving the Attached Special: Please check your spam blocker or your email software for setting that will remove the attached PDF files.

Canceling? Reply back to our email that you received and say that you would like to stop. We will remove your contact info from our system.

Other Questions: You can call The Hardwood Store or contact the Store Manager and we will "try" to help you. We are hardwood product experts not computer experts.
