

St. Croix Valley Hardwoods

Particleboard Hardwood Plywood from St. Croix Valley Hardwoods

Premium grade veneer requires a premium grade core.

That's why St. Croix Valley Hardwoods is proud to offer Timber Products Company's particleboard core hardwood plywood. This specially engineered particleboard core provides the perfect density on the face and back for high grade veneers, and a core that delivers physical properties to make it a workhorse for many applications.

Timber Products Company particleboard contains 100% post-industrial recycled wood fibers and includes Composite Panel Association (CPA) Environmentally Preferred Product certification.
